

You have a “PROCESS SUPERPOWER”

People with **Process Superpower** are organized & Process oriented.

Your biggest strength lies in your ability of keeping control through calculations. You enjoy working with numbers & data. While people often call you very systematic & strict in adhering to process. Your biggest strength is that you are process driven. You are highly organized. But you don't like to communicate or collaborate with other people. You find it difficult to build new connections. You enjoy being in your own mental space.

Without **Process Superpower**, outcome cannot be attained in stipulated time & of consistent quality. you are good at doing complex calculations & maintaining the flow of execution.

Learning Source & Style

People with **Process Superpower** learn from own self. While always focusing on calculations & systematic ways of performing tasks, they are good at answering questions starting from How? Their preferred style of learning is Read & Write.
